

Dear Client:

Novartis products purchased through this clinic will have a 100% satisfaction guarantee. Novartis parasiticide products are backed by a 100% satisfaction guarantee for products sold exclusively through small animal veterinary clinics. If a client is not completely satisfied, they may contact the Novartis Customer Relations Department at 1-888-327-9745. We will solve the problem, replace the product or refund the full purchase price.

Therefore, sales conducted via the Internet or through catalog companies, where the retailer has not examined your animal, will not be recognized in our guarantee.
